A MESSAGE FROM THE PRESIDENT AND CHIEF EXECUTIVE OFFICER

At Unite Oil and Gas International Consulting, LLC, we believe the future of energy is still reliant on fossil fuels but should be developed utilizing the most efficient technology available that minimizes environmental impact. whilst the green energy transition gathers pace. Our niche is supporting host countries globally to monetize hydrocarbon resources that have been bypassed by major oil companies.

The foundation of our corporate tenets lies within a keen focus on empowering the people of the communities where we operate with technology transfer and streamlined best practices in the industry. Secondly, project execution is based on collaborative decision making by including all stakeholders to maintain alignment, maximize profitability and ensure safe operations.

With decades of in global oil and gas experience combined, we understand how to navigate the geopolitical construct to deliver project success.

We look forward to establishing a strategic partnership with you. Thank you for your interest in Unite Oil and Gas International Consulting, LLC.

Sincerely,

A handwritten signature in black ink, appearing to read 'Yachtze Luchin'.
